

*"Good afternoon. Everyone, we have completed the mobile clinic today almost just now! The last place was Piste. It was successful because we saw more people than expected. For the whole 4 places we have been to we thought we would see 250 people but at the end **we saw more than 300 sick people**. We want to send each one of you in Konbit Lasante pou Limonade in Columbus a big thank you for your support financially and your concern and of course for being with us in spirit. Most of the cases were hypertension, gastritis, flu, dermatoses, parasitosis, and anemia. We hope next time the whole team Konbit Lasante will be with us because we missed you by our sides physically."*
